

CampOps API Specification

Campground Management Platform - REST API v1.0

Version: 1.0

Last Updated: November 4, 2025

Base URL: <https://api.campops.com/v1>

Current Schema: Based on your existing database structure

Table of Contents

1. [API Overview](#)
2. [Authentication](#)
3. [Company Management API](#)
4. [Property Management API](#)
5. [Site Management API](#)
6. [Guest Management API](#)
7. [Booking Engine API](#)
8. [Financial API](#)
9. [Staff Management API](#)
10. [Common Patterns](#)

API Overview

Design Principles

1. **RESTful** - Resources identified by URIs
2. **Multi-tenant** - Company context in every request
3. **Consistent** - Standard response format across all endpoints
4. **Versioned** - URI-based versioning (/v1/)
5. **Paginated** - All list endpoints support pagination
6. **Idempotent** - Safe retry mechanisms

Base URL Structure

```
https://api.campops.com/v1/{resource}
```

Standard Response Format

Success Response:

```
{
  "success": true,
  "data": {
    // Response payload
  },
  "meta": {
    "timestamp": "2025-11-04T23:00:00Z",
    "requestId": "req-uuid-123"
  }
}
```

Error Response:

```
{
  "success": false,
  "error": {
    "code": "RESOURCE_NOT_FOUND",
    "message": "Site with id 'xyz' not found",
    "details": {}
  },
  "meta": {
    "timestamp": "2025-11-04T23:00:00Z",
    "requestId": "req-uuid-123"
  }
}
```

Authentication

JWT Authentication

All requests require JWT token:

```
Authorization: Bearer <jwt_token>;
```

Token Claims

```
{
  "sub": "user-uuid-123",
  "companyId": "company-uuid-456",
  "propertyIds": ["property-uuid-789"],
  "email": "user@campground.com",
  "role": "owner",
  "iat": 1699123456,
  "exp": 1699209856
}
```

Roles

- `owner` - Full access to company and properties
- `manager` - Property management access
- `staff` - Limited operations access
- `viewer` - Read-only access

Company Management API

Data Models

Company Object

Based on your companies table:

```
{
  "id": "company-uuid-123",
  "name": "Happy Trails Campground Co.",
  "ownerId": "user-uuid-456",
  "stripeCustomerId": "cus_ABC123",
  "subscriptionId": "sub_XYZ789",
  "subscriptionStatus": "active",
  "subscriptionPlan": "growth",
  "subscriptionCreatedAt": "2025-01-15T10:00:00Z",
  "subscriptionCanceledAt": null,
  "billingCycle": "monthly",
  "onboardingToken": "onboard-token-abc",
  "onboardingTokenExpiresAt": "2025-11-10T10:00:00Z",
  "onboardingTokenUsedAt": null,
  "createdAt": "2025-01-15T10:00:00Z",
  "updatedAt": "2025-11-04T23:00:00Z"
}
```

Endpoints

Create Company

POST /v1/companies

Request:

```
{
  "name": "Happy Trails Campground Co.",
  "ownerEmail": "owner@campground.com",
  "subscriptionPlan": "growth",
  "billingCycle": "monthly"
}
```

Response: 201 Created

```
{
  "success": true,
  "data": {
    "id": "company-uuid-123",
    "name": "Happy Trails Campground Co.",
    "ownerId": "user-uuid-456",
    "subscriptionPlan": "growth",
    "onboardingToken": "onboard-token-abc",
    "onboardingUrl": "https://app.campops.com/onboard/onboard-token-abc"
  }
}
```

Get Company

GET /v1/companies/:id

Response: 200 OK

Update Company

PATCH /v1/companies/:id

Request:

```
{
  "name": "Updated Company Name"
}
```

Get Subscription

GET /v1/companies/:id/subscription

Response:

```
{
  "success": true,
  "data": {
    "subscriptionId": "sub_XYZ789",
    "status": "active",
    "plan": "growth",
    "billingCycle": "monthly",
    "currentPeriodStart": "2025-11-01T00:00:00Z",
    "currentPeriodEnd": "2025-12-01T00:00:00Z",
    "cancelAtPeriodEnd": false
  }
}
```

Update Subscription

PATCH /v1/companies/:id/subscription

Request:

```
{
  "plan": "pro",
  "billingCycle": "annual"
}
```

Generate Invite Token

POST /v1/companies/:id/invite

Request:

```
{
  "role": "manager",
  "propertyIds": ["property-uuid-123"]
}
```

Response:

```
{
  "success": true,
  "data": {
    "inviteToken": "invite-token-abc",
    "inviteUrl": "https://app.campops.com/invite/invite-token-abc",
    "expiresAt": "2025-11-11T23:00:00Z"
  }
}
```

```
}  
}
```

Property Management API

Data Models

Property Object

Based on your properties table:

```
{  
  "id": "property-uuid-123",  
  "name": "Sunset Valley Campground",  
  "slug": "sunset-valley-campground",  
  "subdomain": "sunset-valley",  
  "companyId": "company-uuid-456",  
  "ownerId": "user-uuid-789",  
  "email": "info@sunsetvalley.com",  
  "phone": "+1-555-0123",  
  "address": "123 Mountain Road",  
  "city": "Asheville",  
  "state": "NC",  
  "zipCode": "28801",  
  "country": "USA",  
  "propertyType": "campground",  
  "description": "Beautiful mountain campground...",  
  "amenities": [

"propertyType": "campground",
"checkInTime": "15:00:00",
"checkOutTime": "11:00:00",
"timezone": "America/New_York"
}
```

Response: 201 Created

Get Property

GET /v1/properties/:id

Response: 200 OK

List Properties

GET /v1/properties

Query Parameters:

- companyId (optional) - Filter by company
- status (optional) - Filter by status
- page (optional) - Page number
- limit (optional) - Items per page

Response:

```
{
  "success": true,
  "data": [
    {
      // Property objects
    }
  ],
  "meta": {
    "pagination": {
      "page": 1,
      "limit": 20,
      "total": 3,
      "totalPages": 1
    }
  }
}
```

Update Property

PATCH /v1/properties/:id

Request:

```
{
  "description": "Updated description",
  "amenities": [
    {"id": "wifi", "name": "WiFi", "available": true}
  ]
}
```

Update Booking Page

PATCH /v1/properties/:id/booking-page

Request:

```
{
  "heroImageUrl": "https://...",
  "bookingPageDescription": "...",
  "bookingPageTagline": "...",
  "brandColorPrimary": "#2C5F4F"
}
```

Connect Stripe Account

POST /v1/properties/:id/connect-stripe

Request:

```
{
  "authorizationCode": "ac_ABC123"
}
```

Response:

```
{
  "success": true,
  "data": {
    "stripeAccountId": "acct_ABC123",
    "connectedAt": "2025-11-04T23:00:00Z"
  }
}
```

Site Management API

Data Models

Site Object

Based on your sites table:

```
{
  "id": "site-uuid-123",
  "propertyId": "property-uuid-456",
  "siteNumber": "A-101",
  "siteName": "Lakeside Premium",
  "siteType": "rv",
  "maxOccupancy": 6,
  "maxVehicles": 2,
  "sizeSqft": 1200,
  "hookups": [

        {"type": "water", "pressure": "standard"}
    ]
}

```

```
    {"type": "sewer", "available": true}
  ],
  "basePrice": 6500,
  "allowPets": true,
  "petFee": 1500
}
```

Response: 201 Created

Get Site

GET /v1/properties/:propertyId/sites/:id

Response: 200 OK

List Sites

GET /v1/properties/:propertyId/sites

Query Parameters:

- `siteType` (optional) - Filter by type
- `status` (optional) - Filter by status
- `minPrice` (optional) - Minimum base price
- `maxPrice` (optional) - Maximum base price
- `allowPets` (optional) - Filter pet-friendly sites

Response:

```
{
  "success": true,
  "data": [
    {
      // Site objects
    }
  ],
  "meta": {
    "pagination": {
      "page": 1,
      "limit": 50,
      "total": 45
    }
  }
}
```

Update Site

PATCH /v1/properties/:propertyId/sites/:id

Request:

```
{
  "basePrice": 7000,
  "status": "maintenance"
}
```

Check Availability

GET /v1/properties/:propertyId/sites/available

Query Parameters:

- `checkInDate` (required) - Check-in date (YYYY-MM-DD)
- `checkOutDate` (required) - Check-out date (YYYY-MM-DD)
- `siteType` (optional) - Filter by site type
- `minOccupancy` (optional) - Minimum occupancy

Response:

```
{
  "success": true,
  "data": {
    "availableSites": [
      {
        "id": "site-uuid-123",
        "siteNumber": "A-101",
        "siteType": "rv",
        "basePrice": 6500,
        "calculatedPrice": 7500
      }
    ],
    "totalAvailable": 12,
    "searchCriteria": {
      "checkInDate": "2025-12-01",
      "checkOutDate": "2025-12-05",
      "nights": 4
    }
  }
}
```

Guest Management API

Data Models

Guest Object

Based on your `guests` table:

```
{
  "id": "guest-uuid-123",
  "propertyId": "property-uuid-456",
  "userId": "user-uuid-789",
  "firstName": "John",
  "lastName": "Doe",
  "email": "john.doe@email.com",
  "phone": "+1-555-0199",
  "address": "456 Oak Street",
  "city": "Charlotte",
  "state": "NC",
  "zipCode": "28202",
  "country": "USA",
  "emergencyContactName": "Jane Doe",
  "emergencyContactPhone": "+1-555-0200",
  "notes": "Prefers lakeside sites",
  "stripeCustomerId": "cus_GuestABC123",
  "createdAt": "2025-01-25T10:00:00Z",
  "updatedAt": "2025-11-04T23:00:00Z"
}
```

Endpoints

Create Guest

POST `/v1/guests`

Request:

```
{
  "propertyId": "property-uuid-456",
  "firstName": "John",
  "lastName": "Doe",
  "email": "john.doe@email.com",
  "phone": "+1-555-0199",
  "address": "456 Oak Street",
  "city": "Charlotte",
  "state": "NC",
  "zipCode": "28202",
  "emergencyContactName": "Jane Doe",
  "emergencyContactPhone": "+1-555-0200"
}
```

Response: 201 Created

Get Guest

GET /v1/guests/:id

Response: 200 OK

List Guests

GET /v1/guests

Query Parameters:

- `propertyId` (optional) - Filter by property
- `search` (optional) - Search by name or email

Response:

```
{
  "success": true,
  "data": [
    {
      // Guest objects
    }
  ]
}
```

Get Guest Reservations

GET /v1/guests/:id/reservations

Query Parameters:

- `status` (optional) - Filter by reservation status
- `dateFrom` (optional) - Start date filter
- `dateTo` (optional) - End date filter

Response:

```
{
  "success": true,
  "data": {
    "guest": {
      // Guest object
    },
    "reservations": [
      {
        // Reservation objects
      }
    ]
  }
}
```

```
    "statistics": {
      "totalReservations": 15,

    "reservedUntil": "2025-11-08T23:00:00Z",
    "paymentUrl": "https://checkout.campops.com/pay/reservation-uuid-123"
  }
}
```

Get Reservation

GET /v1/reservations/:id

Response: 200 OK

List Reservations

GET /v1/reservations

Query Parameters:

- `propertyId` (optional)
- `siteId` (optional)
- `guestId` (optional)
- `status` (optional)
- `checkInDateFrom` (optional)
- `checkInDateTo` (optional)
- `bookingType` (optional)

Response:

```
{
  "success": true,
  "data": [
    {
      // Reservation objects
    }
  ],
  "meta": {
    "pagination": {
      "page": 1,
      "limit": 50,
      "total": 234
    }
  }
}
```

Extend Reservation

POST /v1/reservations/:id/extend

Request:

```
{
  "newCheckOutDate": "2025-12-08",
  "reason": "Guest requested extension"
}
```

Response:

```
{
  "success": true,
  "data": {
    "reservation": {
      // Updated reservation
    },
    "additionalCharge": 9000,
    "newTotalAmount": 39000
  }
}
```

Renew Reservation

POST /v1/reservations/:id/renew

Request:

```
{
  "renewalType": "monthly",
  "numMonths": 3
}
```

Response:

```
{
  "success": true,
  "data": {
    "renewalOfferedAt": "2025-11-04T23:00:00Z",
    "renewalDeadline": "2025-11-11T23:00:00Z",
    "depositAmount": 22500,
    "totalAmount": 90000
  }
}
```

Check In Guest

POST /v1/reservations/:id/check-in

Request:

```
{
  "balancePaidAtCheckin": 22500,
  "checkInNotes": "Guest arrived early, all good"
}
```

Response:

```
{
  "success": true,
  "data": {
    "checkedInAt": "2025-12-01T14:30:00Z",
    "checkedInBy": "user-uuid-123",
    "status": "checked_in"
  }
}
```

Check Out Guest

POST /v1/reservations/:id/check-out

Request:

```
{
  "checkOutNotes": "Site left in excellent condition",
  "damageInspectionData": {
    "damages": [],
    "inspectedBy": "user-uuid-123"
  }
}
```

Response:

```
{
  "success": true,
  "data": {
    "checkedOutAt": "2025-12-05T10:30:00Z",
    "checkedOutBy": "user-uuid-123",
    "status": "checked_out"
  }
}
```

Cancel Reservation

POST /v1/reservations/:id/cancel

Request:

```
{
  "reason": "Guest cancelled due to emergency",
  "refundAmount": 7500
}
```

Response:

```
{
  "success": true,
  "data": {
    "cancelledAt": "2025-11-04T23:00:00Z",
    "refundAmount": 7500,
    "refundProcessed": true,
    "status": "cancelled"
  }
}
```

Get Reservation Actions (Audit Trail)

GET /v1/reservations/:id/actions

Response:

```
{
  "success": true,
  "data": [
    {
      "id": "action-uuid-123",
      "reservationId": "reservation-uuid-456",
      "actionType": "created",
      "actionDetails": {
        "source": "direct_booking"
      },
      "performedBy": "user-uuid-789",
      "performedAt": "2025-11-04T20:00:00Z",
      "priceChangeCents": 30000
    },
    {
      "id": "action-uuid-124",
      "actionType": "extended",
      "actionDetails": {
        "originalCheckOut": "2025-12-05",
        "newCheckOut": "2025-12-08"
      },
      "performedBy": "user-uuid-789",
      "performedAt": "2025-12-03T15:30:00Z",
    }
  ]
}
```

```
    "priceChangeCents": 9000
  }
]
}
```

Financial API

Data Models

Payment Object

Based on your payments table:

```
{
  "id": "payment-uuid-123",
  "propertyId": "property-uuid-456",
  "reservationId": "reservation-uuid-789",
  "amount": 7500,
  "paymentMethod": "credit_card",
  "paymentStatus": "completed",
  "stripePaymentId": "pi_ABC123",
  "transactionId": "txn-2025-001234",
  "notes": "Deposit payment",
  "processedAt": "2025-11-04T23:00:00Z",
  "createdAt": "2025-11-04T23:00:00Z"
}
```

Payment Installment Object

Based on your payment_installments table:

```
{
  "id": "installment-uuid-123",
  "reservationId": "reservation-uuid-456",
  "installmentNumber": 1,
  "description": "Deposit (25%)",
  "amountCents": 7500,
  "dueDate": "2025-11-04",
  "status": "paid",
  "paymentId": "payment-uuid-789",
  "notes": null,
  "reminderSentAt": [
    "2025-10-28T10:00:00Z",
    "2025-11-01T10:00:00Z"
  ],
  "createdAt": "2025-11-04T20:00:00Z",
  "updatedAt": "2025-11-04T23:00:00Z"
}
```

Endpoints

Process Payment

POST /v1/payments

Request:

```
{
  "reservationId": "reservation-uuid-123",
  "amount": 7500,
  "paymentMethod": "credit_card",
  "stripePaymentMethodId": "pm_ABC123"
}
```

Response: 201 Created

```
{
  "success": true,
  "data": {
    "id": "payment-uuid-456",
    "amount": 7500,
    "paymentStatus": "completed",
    "stripePaymentId": "pi_XYZ789",
    "processedAt": "2025-11-04T23:00:00Z"
  }
}
```

Get Payment

GET /v1/payments/:id

Response: 200 OK

List Payments

GET /v1/payments

Query Parameters:

- `propertyId` (optional)
- `reservationId` (optional)
- `status` (optional)
- `dateFrom` (optional)
- `dateTo` (optional)

Process Refund

POST /v1/payments/:id/refund

Request:

```
{
  "amount": 7500,
  "reason": "Cancelled reservation - full refund per policy"
}
```

Response:

```
{
  "success": true,
  "data": {
    "refundId": "refund-uuid-123",
    "amount": 7500,
    "status": "succeeded",
    "processedAt": "2025-11-04T23:00:00Z"
  }
}
```

Create Payment Installments

POST /v1/reservations/:id/installments

Request:

```
{
  "plan": "4_payments",
  "firstPaymentDate": "2025-11-04",
  "intervalDays": 7
}
```

Response:

```
{
  "success": true,
  "data": {
    "installments": [
      {
        "installmentNumber": 1,
        "description": "Payment 1 of 4",
        "amountCents": 7500,
        "dueDate": "2025-11-04"
      },
      {
        "installmentNumber": 2,
        "description": "Payment 2 of 4",
        "amountCents": 7500,

```

```
    "dueDate": "2025-11-11"
  },
  {
    "installmentNumber": 3,
    "description": "Payment 3 of 4",
    "amountCents": 7500,
    "dueDate": "2025-11-18"
  },
  {
    "installmentNumber": 4,
    "description": "Payment 4 of 4",
    "amountCents": 7500,
    "dueDate": "2025-11-25"
  }
],
"totalAmount": 30000
}
```

Get Payment Installments

GET /v1/reservations/:id/installments

Response:

```
{
  "success": true,
  "data": {
    "installments": [
      {
        "id": "installment-uuid-123",
        "installmentNumber": 1,
        "amountCents": 7500,
        "dueDate": "2025-11-04",
        "status": "paid"
      }
    ],
    "summary": {
      "totalAmount": 30000,
      "paidAmount": 7500,
      "remainingAmount": 22500,
      "nextDueDate": "2025-11-11",
      "nextDueAmount": 7500
    }
  }
}
```

Mark Installment as Paid

PATCH /v1/installments/:id/mark-paid

Request:

```
{
  "paymentId": "payment-uuid-456"
}
```

Response:

```
{
  "success": true,
  "data": {
    "id": "installment-uuid-123",
    "status": "paid",
    "paymentId": "payment-uuid-456"
  }
}
```

Get Financial Summary

GET /v1/properties/:propertyId/financial-summary

Query Parameters:

- dateFrom (required)
- dateTo (required)

Response:

```
{
  "success": true,
  "data": {
    "period": {
      "start": "2025-11-01",
      "end": "2025-11-30"
    },
    "revenue": {
      "total": 125000,
      "byBookingType": {
        "nightly": 85000,
        "weekly": 25000,
        "monthly": 15000
      }
    },
    "payments": {
      "total": 95000,
      "count": 48,
      "byMethod": {
        "credit_card": 80000,

```

```
        "cash": 10000,
        "check": 5000
      },
      {
        "outstanding": {
          "total": 30000,
          "overdue": 5000
        },
        "refunds": {
          "total": 3000,
          "count": 2
        },
        "netRevenue": 92000
      }
    ]
  }
}
```

Staff Management API

Data Models

Property Staff Object

Based on your property_staff table:

```
{
  "id": "staff-uuid-123",
  "propertyId": "property-uuid-456",
  "userId": "user-uuid-789",
  "role": "manager",
  "permissions": [
    "manage_reservations",
    "view_financial_reports",
    "manage_sites"
  ],
  "createdAt": "2025-01-20T10:00:00Z",
  "updatedAt": "2025-11-04T23:00:00Z"
}
```

Endpoints

Add Staff Member

POST /v1/properties/:propertyId/staff

Request:

```
{
  "userId": "user-uuid-789",
  "role": "manager",
```

```
"permissions": [
  "manage_reservations",
  "view_financial_reports"
]
}
```

Response: 201 Created

List Staff

GET /v1/properties/:propertyId/staff

Response:

```
{
  "success": true,
  "data": [
    {
      "id": "staff-uuid-123",
      "user": {
        "id": "user-uuid-789",
        "email": "manager@campground.com",
        "name": "Jane Smith"
      },
      "role": "manager",
      "permissions": ["manage_reservations"]
    }
  ]
}
```

Update Staff Role

PATCH /v1/properties/:propertyId/staff/:id

Request:

```
{
  "role": "staff",
  "permissions": ["view_reservations"]
}
```

Remove Staff

DELETE /v1/properties/:propertyId/staff/:id

Response: 204 No Content

Common Patterns

Pagination

All list endpoints support pagination:

```
GET /v1/reservations?page=2&limit=50
```

Response includes:

```
{
  "meta": {
    "pagination": {
      "page": 2,
      "limit": 50,
      "total": 234,
      "totalPages": 5,
      "hasNextPage": true,
      "hasPrevPage": true
    }
  }
}
```

Filtering

Common filter patterns:

```
GET /v1/reservations?status=confirmed&checkInDateFrom=2025-12-01
GET /v1/sites?siteType=rv&allowPets=true&minPrice=5000
GET /v1/payments?paymentStatus=completed&dateFrom=2025-11-01&dateTo=2025-11-30
```

Error Codes

Code	HTTP Status	Description
VALIDATION_ERROR	400	Request validation failed
UNAUTHORIZED	401	Authentication required
FORBIDDEN	403	Insufficient permissions
RESOURCE_NOT_FOUND	404	Resource does not exist
SITE_UNAVAILABLE	409	Site not available for dates
PAYMENT_FAILED	422	Payment processing failed
RATE_LIMIT_EXCEEDED	429	Too many requests
INTERNAL_SERVER_ERROR	500	Server error

Rate Limiting

```
X-RateLimit-Limit: 1000  
X-RateLimit-Remaining: 950  
X-RateLimit-Reset: 1699130400
```

This API specification is based on your actual CampOps database schema and reflects your current multi-tenant campground management domain. All endpoints assume Supabase backend with Row-Level Security enforcing company isolation.
